“

My Mum entered the carehome during the first lockdown. Since then she has been well cared for. During the lockdown, the home did everything to help our family have contact with Mum who suffers from dementia. The care staff do a wonderful job in sometimes difficult scenarios which

I have witnessed when visiting. They always show such kindness to the residents. There are activities for the residents and hairdressing. I know if I speak to any staff they listen to me. They always keep me informed about mum and her health if needed.

BEECHWOOD
GARDENS CARE HOME

We Specialise in Dementia Care

At Beechwood Gardens, our mission is to provide a safe, secure and compassionate environment for individuals living with dementia. We strive to enrich the lives of our residents by offering personalised care plans and engaging activities that cater to their unique needs, interests and abilities.

Introduction

Why Choose Beechwood?

At Beechwood Gardens, we specialize in providing round-the-clock care for individuals living with Dementia. Our highly trained staff is equipped to provide physical, emotional, and spiritual support, ensuring that our residents receive the utmost care.

While ensuring our residents' well-being is our top priority, it is important to note that we are not registered to provide nursing care for those who require constant medical supervision. However, our community Nursing Service, local GPs, and other members of the Community Health Team attend to residents with less complex nursing needs.

We offer protected meal times and organise daily activities, as well as host outside entertainment such as singers, musicians, and exercise classes.

- ✓ A Home for Life
- ✓ Homemade Meals
- ✓ We cater for all dietary needs

27 Years of Experience

Meet our Founders

Wendy and Brian started their first care home in 1988. Another home followed in 1992 and their final purchase was Beechwood Gardens in 1995 when it had been closed down. Over the years they transformed it into the warm, homely and comfortable care home it is today. Their mission has been to create a happy place both for our residents to live and our staff to work and for families to feel comfortable that their loved ones are in good hands. Good food also comes high up on their agenda alongside enjoyable activities also.
